"An icon written with the blood of a whipped man, crowned with thorns, crucified and pierced on his right side."

-Pope Emeritus Benedict XVI

The Shroud of Turin has long been venerated by the faithful and is believed by many to be the burial cloth of Jesus of Nazareth. The Shroud is one of the most scientifically studied religious icons in history. As science has progressed, so has the speculation on how the image of the crucified man of the Shroud was made.

After decades of exhaustive and medical, historical and scientific research, the Center for the Study of the Passion of the Christ and the Holy Shroud has developed a moving and informative mobile exhibit on the Shroud of Turin. The centerpiece is a full length canvas replica of the Shroud made by the **Shroud of Turin Education and Research Association, Inc.** In addition, the mobile exhibit contains a large crucified corpus showing the wounds of Christ corresponding to the passion narrative in the Gospel accounts and the wounds shown on the Shroud. The exhibit contains over 31 pop-up display banners detailing the history and science of the Shroud.
