

Each independent business or organization affiliated with the Diocese of Erie has the ability to set up a service agreement with a counseling agency to take care of employee concerns that may affect their employment (Employee Assistance Plan - EAP). If the organization determines there is a need, the finance person or business office manager along with the pastor, administrator or head of the organization should contact a local counseling agency to see what services they offer, and the cost associated with those services. If you have questions, or need assistance in this area, please contact Jim Tometsko at (814) 824-1189 or jtometsko@eriercd.org.
