

## UN-Conference discussion Questions:

### Operations

- What protocols and procedures will need to be in place to promote social distancing in all school facilities?
- How will you monitor the health of the students as they enter the building daily?
- What procedures will have to be implemented?
- Students and/or teachers who are at high-risk for COVID-19 complications, or live with someone who is high risk, may request to learn or teach remotely.
- How might this be accommodated?
- How can the number of personal interactions be minimized?
  - Examples:
    - Can the number of class changes be reduced?
    - Can teachers move instead of the students?
    - Can lunch be held in classrooms?
- Discuss the need and options of for:
  - adjusting the normal operating hours,
  - staggering schedules,
  - changing transportation drop off and pick up routines,
  - using multiple entrances/exits for students and staff.
- What changes will have to be made to the master schedule to allow for social distancing and to prepare for potential transitions among the three instructional scenarios:
  - Face-to-Face instruction with COVID-19 adjustments?
  - Remote learning?
  - Hybrid (face-to-face and remote learning)?
