

Unconference 2020 Technology Sessions

1. What worked/ what was a creative solution that you never planned for but worked well? (Any pleasant surprises?)
2. What caught you off guard? What is one thing you wish you had done differently?

3. What were the major obstacles and challenges faced by the families?
4. What were the major obstacles faced by the teachers?
5. How will the lessons learned from what worked and what didn't, as well as the obstacles faced by the families and teachers help you plan better for the return to school?

6. How will you use technology to make instruction seamless between the three return to school instructional modes?
7. What handbook or procedural changes do you anticipate for the fall?
8. How do you equip teachers with technology needed for remote learning from home?

9. Is anyone considering allowing students and teachers to use personal technology devices?

10. Parish-Based School Question: Does anyone have examples of how technology assisted with tracking attendance and assignments etc. to make it easier?
